

## CONTACT FORM: "Young Burn Survivors Day" on December 7th

Each year on December 7th we celebrate the "Young Burn Survivors Day" in Germany. In the last few years more and more countries have been participating, such as Sweden and Switzerland. We would like to encourage you to join us to make this day and the idea go international. The "Young Burn Survivors Day" wants to prevent further accidents, inform about treatment options for children with burns, and alert to safety hazards and teach about first aid. Hospitals, fire departments, pharmacies, day care centers, medical offices, and many others are participating each year in Germany.

Create a Burn Awareness Day in your community, in your country on December 7th. Please find further information, event and activity schedules, as well as a list of all participating organizations on our website: [www.tag-des-brandverletzten-kindes.de](http://www.tag-des-brandverletzten-kindes.de) | E-mail: [tdbk@paulinchen](mailto:tdbk@paulinchen)
